# ADVENTURE BASE

## Adventure Base expand Global Adventures to Austria, Patagonia and Japan

Adventure Base expand Dream Guides programme with new routes in Austria, Patagonia and Japan for this coming winter- as part of their vision to become the worlds premiere adventure provider.

Adventure Base has been out researching the hottest locations for quality adventures and has added some inspiring trips to their portfolio for this coming winter.

### Austria

As part of our extensive ski touring programme, we will be offering an alternative Haute Route Ski Tour to the classic Chamonix – Zermatt. The Otzal Haute Route traverses the Austrian mountain range and is set to be one of the most popular ski tour routes in coming years. At the moment it benefits from being less known as the Classic Haute Route, meaning a truer mountain experience for those wise enough to opt in. The beer on tap and the hut hot tubs might also play a role in making this, as yet relatively undiscovered, trip a real gem.

### Patagonia

On the other side of the globe, our friends in Patagonia have been putting together a unique ski touring itinerary for those Adventure Base clients who just can't wait for the European winter to start. They say it's the best spring skiing in the world and they should know, they are born and bred Argentinians but have travelled the globe looking for the perfect turns! The trip starts on the Argentinian side in the city of Bariloche at the foot of the Andes, and traverses across to Chile – this takes you up the most beautiful of Volcanoes and through the regions national parks. There is plenty of opportunity to immerse yourself in the Patagonian lifestyle, enjoying the cuisine and as well as the much deserved hot springs.

### Japan

Japan has truly earned itself a place on the global ski map due to the ridiculous amount of fresh powder it gets during the winter months. They say the combination of the Siberian winds crossing over the Sea of Japan makes for daily dumps that just keep coming, This winter Adventure Base will be running a trip to the north island of Hokkaido, with a stop in the village of Nazawa Onsen on the main land, the hot spring village where the steam of the spring rises up through the cobble streets.

Rhiannon Cook, newly appointed Head of Business Development comments 'this is just the start of a four-year expansion program that we have launched at Adventure Base. With our extensive knowledge of the industry and a team of incredibly motivated staff and guides, we find ourselves in a great position to be able to bring the very best global adventures to our clients. We will soon be launching our Ride and Run program, which will offer incredible trips such as trail running camps in Ethiopia and road biking in Mallorca'
