

MINI ADVENTURES

OUT OF OFFICE: 006 - MONT BLANC

OUT OF OFFICE: 006 - MONT BLANC

We have a rule that every month we get out of the office, away from the noise and in to the great outdoors. This month was the big one. We took off to try and summit Western Europe's highest mountain, Mont Blanc!

Mont Blanc (4810m) is the highest peak in the Alps and Western Europe. This beautiful, imposing and highly sought after summit will never disappoint and it didn't for us. It's a majestic peak that sits at the roof of the Alps on the border of France and Italy, has magnificent views across the rest of the Alps and entices mountaineers from all over the world year after year. We can completely understand why...

If you want to learn more about climbing Mont Blanc head over to our webpage [here](#).

OUT OF OFFICE: 006 - MONT BLANC

For us here at Adventure Base there's nothing we enjoy more than getting outside and in to the elements. The only thing that tops that is good company. When you combine the two it makes for something pretty special.
