VALLON

CLASSIC STYLE, MAXIMUM PERFORMANCE EYEWEAR

**VALLON**

# VALLON

VALLON was founded by two Swedish brothers with a deep passion for outdoor sports, and a shared vision to reinvent sports eyewear by merging classic design elements with high-performance functionality. This meant digging deep into sports history, borrowing inspiration from traditional high alpine designs to 70s surf documentaries, to create new and unique eyewear. After years of development and testing, VALLON has developed their proprietary V52® lens technology, providing the highest optical clarity of any performance sunglasses on the market.

## WHY DO WE RECOMMEND THEM?

VALLON creates optimal performance sunglasses and ski goggles for those taking on the world's toughest challenges. Their products are trusted by professional athletes taking on the world's toughest challenges; they've crossed every ocean and summited every peak. Our Adventure Base team of professional mountain guides sport their products all year round, whether they're summiting Mont Blanc, skiing the Haute Route, or hiking to Everest Base Camp.

## OUR PRODUCT PICK

We love VALLON's flagship product, the **Heron Glacier** sunglasses – designed specifically for mountaineering, ski touring, and glacial expeditions. The vintage round silhouette is protected by leather side shields and comes with a removable centerpiece, combined with Cat. 4 mirrored lenses that provide unmatched protection for your eyes. The Heron range is also available for Mountain and Ocean environments.
